Morgan Medical Center Welcomes Georgia Emergency Department Services to Morgan County, Georgia

Morgan Medical Center Strengthens Emergency Care
Through Partnership with Georgia Emergency Department Services (GEDS)

October 27, 2025 (Madison, GA) — Morgan Medical Center — Morgan County's nationally recognized community hospital and Level IV Trauma Center — is proud to announce a partnership with Georgia Emergency Department Services (GEDS) for the staffing and coordination of its Emergency Department.

This collaboration enhances emergency care for the community by ensuring that every patient is seen by board-certified, residency-trained emergency medicine physicians, a distinction that places Morgan Medical Center among the top-tier rural hospitals in Georgia. These providers bring advanced knowledge in critical and trauma care, rapid patient assessment, and procedural excellence, all of which directly contribute to improved patient outcomes and a superior experience for patients and families alike.

“This partnership represents an investment in patient safety and clinical excellence,” said Ralph A. Castillo, CPA, Chief Executive Officer of Morgan Medical Center. “GEDS physicians bring advanced training, rapid response skills, and compassionate care that elevate our Emergency Department to the next level.”

Leading the department is Dr. Sidhant “Sid” Nagrani, who will serve as Emergency Department Medical Director. Dr. Nagrani joined GEDS in 2019 and earned his medical degree from the Medical College of Georgia following an undergraduate degree from the Georgia Institute of Technology. Known for his outstanding clinical skill, calm leadership, and compassionate bedside manner, Dr. Nagrani is committed to fostering a collaborative, team-centered environment that supports both staff and patient needs.

Morgan Medical Center’s mission is to deliver exceptional, patient-focused care with compassion and integrity. Its partnership with GEDS underscores that commitment ensuring every patient who seeks emergency care in Morgan County receives expert treatment from a team fully dedicated to their health and recovery.

With GEDS, Morgan Medical Center continues its mission to deliver exceptional, patient-focused care close to home, which allows each patient to receive the right care, at the right time, by the right team.
